the QUESTIONS

BEST STAGE FOR MATERNITY SESSION

Any time from 30 weeks, depending on the size of the baby bump!

BEST STAGE FOR NEWBORN SESSION

Any time from 4 days up to 18 days are the best. You can do it up to 2 months, depending on baby.

SIBLINGS

It is natural for a sibling to want to be with Mommy all the time but ... this can be a distraction. Best is to arrange for someone to look after them during the maternity session when their photos are done. For the newborn session they are needed for only 30 minutes. Best is to arrange for someone to either take them home or to a playschool after their images are done. Dad is also needed for about 30 minutes. Photographing siblings can be a challenge. No poses are guaranteed.

INFO/PREP FOR THE SESSIONS

I will be sending you all the necessary info for both sessions. Since we need a sleepy baby for the newborn session, I cannot stretch enough that to take good care for the preparation of the newborn session. The better your preparation, the better the results of your session.

PROFESSIONAL MAKE-UP

Doing a photoshoot without decent make-up is like driving a car with only three wheels! Zenita de Villiers (082 054 4340) will come to the studio when doing the newborn session so that you do not have to drive anywhere with baby. You can visit her as well for the maternity session.

CLOTHING

You are welcome to hire one of my lace dresses for R100 or you can visit Bridal Inn for one of their stretch dresses. It will be best if you bring one of your own outfits also just for a bit of variety.

some more

QUESTIONS

THE DURATION OF THE NEWBORN SESSIONS

The Mini session makes provision for 2 hours.

The Full newborn session can take up to 4 hours.

It is advisable to not make any arrangements for at least 5 hours as baby rules the session. It can take up to 1 hour just to get baby settled.

FAMILY MEMBERS

Having a grandchild is very exciting! Grandparents can join for about 15 minutes of the session and then they can depart. For other family members it is advisable to arrange a separate session.

THE WAITING PERIOD

Your USB will be ready after 8 weeks for the newborn sessions as any blemishes are removed from their skin. The waiting period for the maternity session is about 4 weeks. I will try my best to post a sneak on social media within 2 weeks. For the BABYLOVE both sessions will be on one USB.

WHAT ABOUT SOCIAL MEDIA

A sneak will be posted on social media (Facebook included) No filters are to be added to any of the images and kindly do not cut or copy them, rather share or tag

Should you prefer it not to be posted, kindly inform me beforehand

THE USB

You are welcome to supply your own USB. Deduct R100.

By booking

Elmine Botha Freelance Photographer you agree to all of the above.
